

Your Health & Safety Update

Recently we experienced significant growth in sales of our #P3CSS filters and Full Face kits #FFP3KIT.

This seems to be driven by a greater focus on respiratory hazards like silica with lower workplace exposure standards requiring increased protection factors.

Our P3 Charcoal Pancake filter #P3CSS suits both our half and Full Face respirators.

However, per ASNZS1715 the protection factor is 10 x greater when used with our full face (100 x protection factor) Vs ½ face option (10 x protection factor & filters only rated as P2).

This increased protection factor, superior fit and additional eye / face protection explains why we have seen demand increase.

To capitalise on this demand, we are offering a **10% discount** until October 10th.

Simply order any quantity of #FFP3KIT's by 10th October and we will apply a one off 10% discount from your order.

Just confirming to qualify order must be received via phone, email or YHS website by 10th October
