

## **FEBRUARY 2021 UPDATE**

As a specialist import wholesaler of respirators we have imported P2 disposables since 2007.

We always strive to provide value, but current market demand and prices makes this challenging.

We have resumed importing our DM10, DM20, DM30 premium P2 foldable masks and DM1, DM2, DM3 P2 cup shaped masks.

As forecast our January container shipment was entirely presold.

We are now collating back orders for our next containers of foldable and cup shaped masks due March.

Please confirm asap if you require any inventory from these next shipments as demand remains strong.

We look forward to better times once global demand declines and we have sufficient inventory to fulfill all orders promptly with better prices

Stay safe 😊
