

APRIL 2021 UPDATE

As a specialist import wholesaler of respirators we have imported P2 disposables since 2007.

We always strive to provide value and regular supply but market demand has made this challenging.

Our next container shipment of #DM1/#DM2/#DM3 P2 cup shape masks is due 6/4/21. Prices are back to pre-covid levels so already this is almost entirely presold.

Our #DM10, #DM20, #DM30 premium P2 foldable masks are currently ex stock.

Demand for both styles remains strong so if you require any inventory please confirm your order asap.

We wish to thank our loyal customers for their understanding during this difficult period. We look forward to better times once global demand declines and we have sufficient inventory at better prices to fulfill all orders promptly.

Stay safe 😊
