

## NOVEMBER UPDATE

As a specialist import wholesaler of respirators we have imported P2 disposables since 2007.

We always strive to provide value, but current market demand and prices makes this challenging.

We have resumed importing our DM10, DM20 and DM30 premium P2 foldable masks. There is limited inventory remaining from our pending January shipment with more to follow in March.

Please confirm asap if you require any inventory from these shipments as demand remains strong.

We look forward to better times once global demand declines and we have sufficient inventory to fulfill all orders promptly with better prices

Stay safe 😊
